

PROJECT AIMS

Develop a European standard for “good practice” **RM training**

Build a **handbook** for training providers who would like to meet the European standard

Provide **organisational mentoring** and **train-the-trainer** program.

**ELEVATING RESEARCH
MANAGEMENT ACROSS
EUROPE!**

9
COUNTRIES

Germany, Hungary, Portugal,
Spain, Poland, Czech Republic,
France, Italy, Romania

EARMA, CHE, HETFA, UC, AGAUR,
DREU, 4EU+, UNIWARSAW, CU,
SU, UNIMIB, ZWM, CORVINUS,
UPM, UMFCO, CZARMA

16
ORGANISATIONS

4
TARGET GROUPS

Research Managers,
Education and Training Providers,
Leadership, Policymakers

ABOUT THE PROJECT

The project **RM Framework** has been launched to establish framework conditions for training programs dedicated to Research Managers (RMs) across Europe. This initiative aims to support the development of a European qualification system for Research Management, enhancing interoperability and strengthening the profession across the **European Research Area**.

RM⁷ FRAMEWORK

**ADVANCING RESEARCH
MANAGEMENT TRAINING
ACROSS EUROPE!**

Supporting the
European Research Area

© European Union, 2024

RM Framework project has received funding from the European Union's Horizon Europe programme under grant agreement number 101188073

KEY RESULTS

A **handbook** for developing high-quality training programs for RMs

A **quality label** to certify and standardise RM training programs across Europe

Pilot training programs to test and measure their impact both on individuals and institutions

CREATING FRAMEWORK CONDITIONS FOR RESEARCH MANAGEMENT TRAINING AND NETWORKING

OBJECTIVES

To create a **European framework for RM training** thereby facilitating HEIs and other training providers in developing and providing coherent and high-quality **RM training**, in line with the **RM1 to RM4** approach, interoperable on the **European, national, and local levels**.

FROM TRAINING TO POLICY CHANGE

For lasting transformation, RM Framework goes beyond training. The project will:

▲ **Organise online and offline user events** to enable the transferability and adoptability of the framework and the label.

◀ **Engage policymakers & institutional leaders** to push for RM professional recognition.

▲ **Deliver policy recommendations** advocating for sustainable funding, standardised training, and integration into national and EU policies.

WHAT'S NEXT

By setting new standards, RM Framework will help research-performing organisations achieve excellence, secure competitive grants, and enhance their global impact.

STAY TUNED AS WE SHAPE THE FUTURE OF RESEARCH MANAGEMENT IN EUROPE!
