

RM¹ FRAMEWORK

RM Framework project

1st Outreach Event – 22. October 2025

EARMA

RM Framework project has received funding from the European Union's Horizon Europe programme under grant agreement number 101188073

Project overview

- **Goals:**

- Support the development of an **open and sustainable European qualification system** for Research Management (RM), enhancing interoperability and improving the performance of RM within the European Research Area (ERA)
- Foster **long-term improvements** in RM professional development programmes across Europe

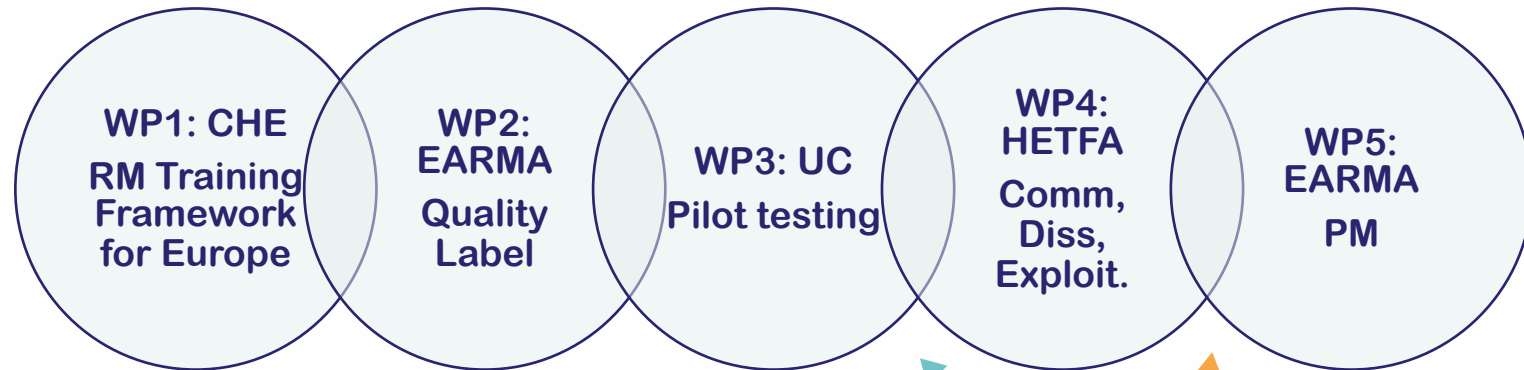

- **Duration:**

- February 2025 – January 2027

- **Consortium:**

- 17 Partners from 10 countries

- **Work Packages:**

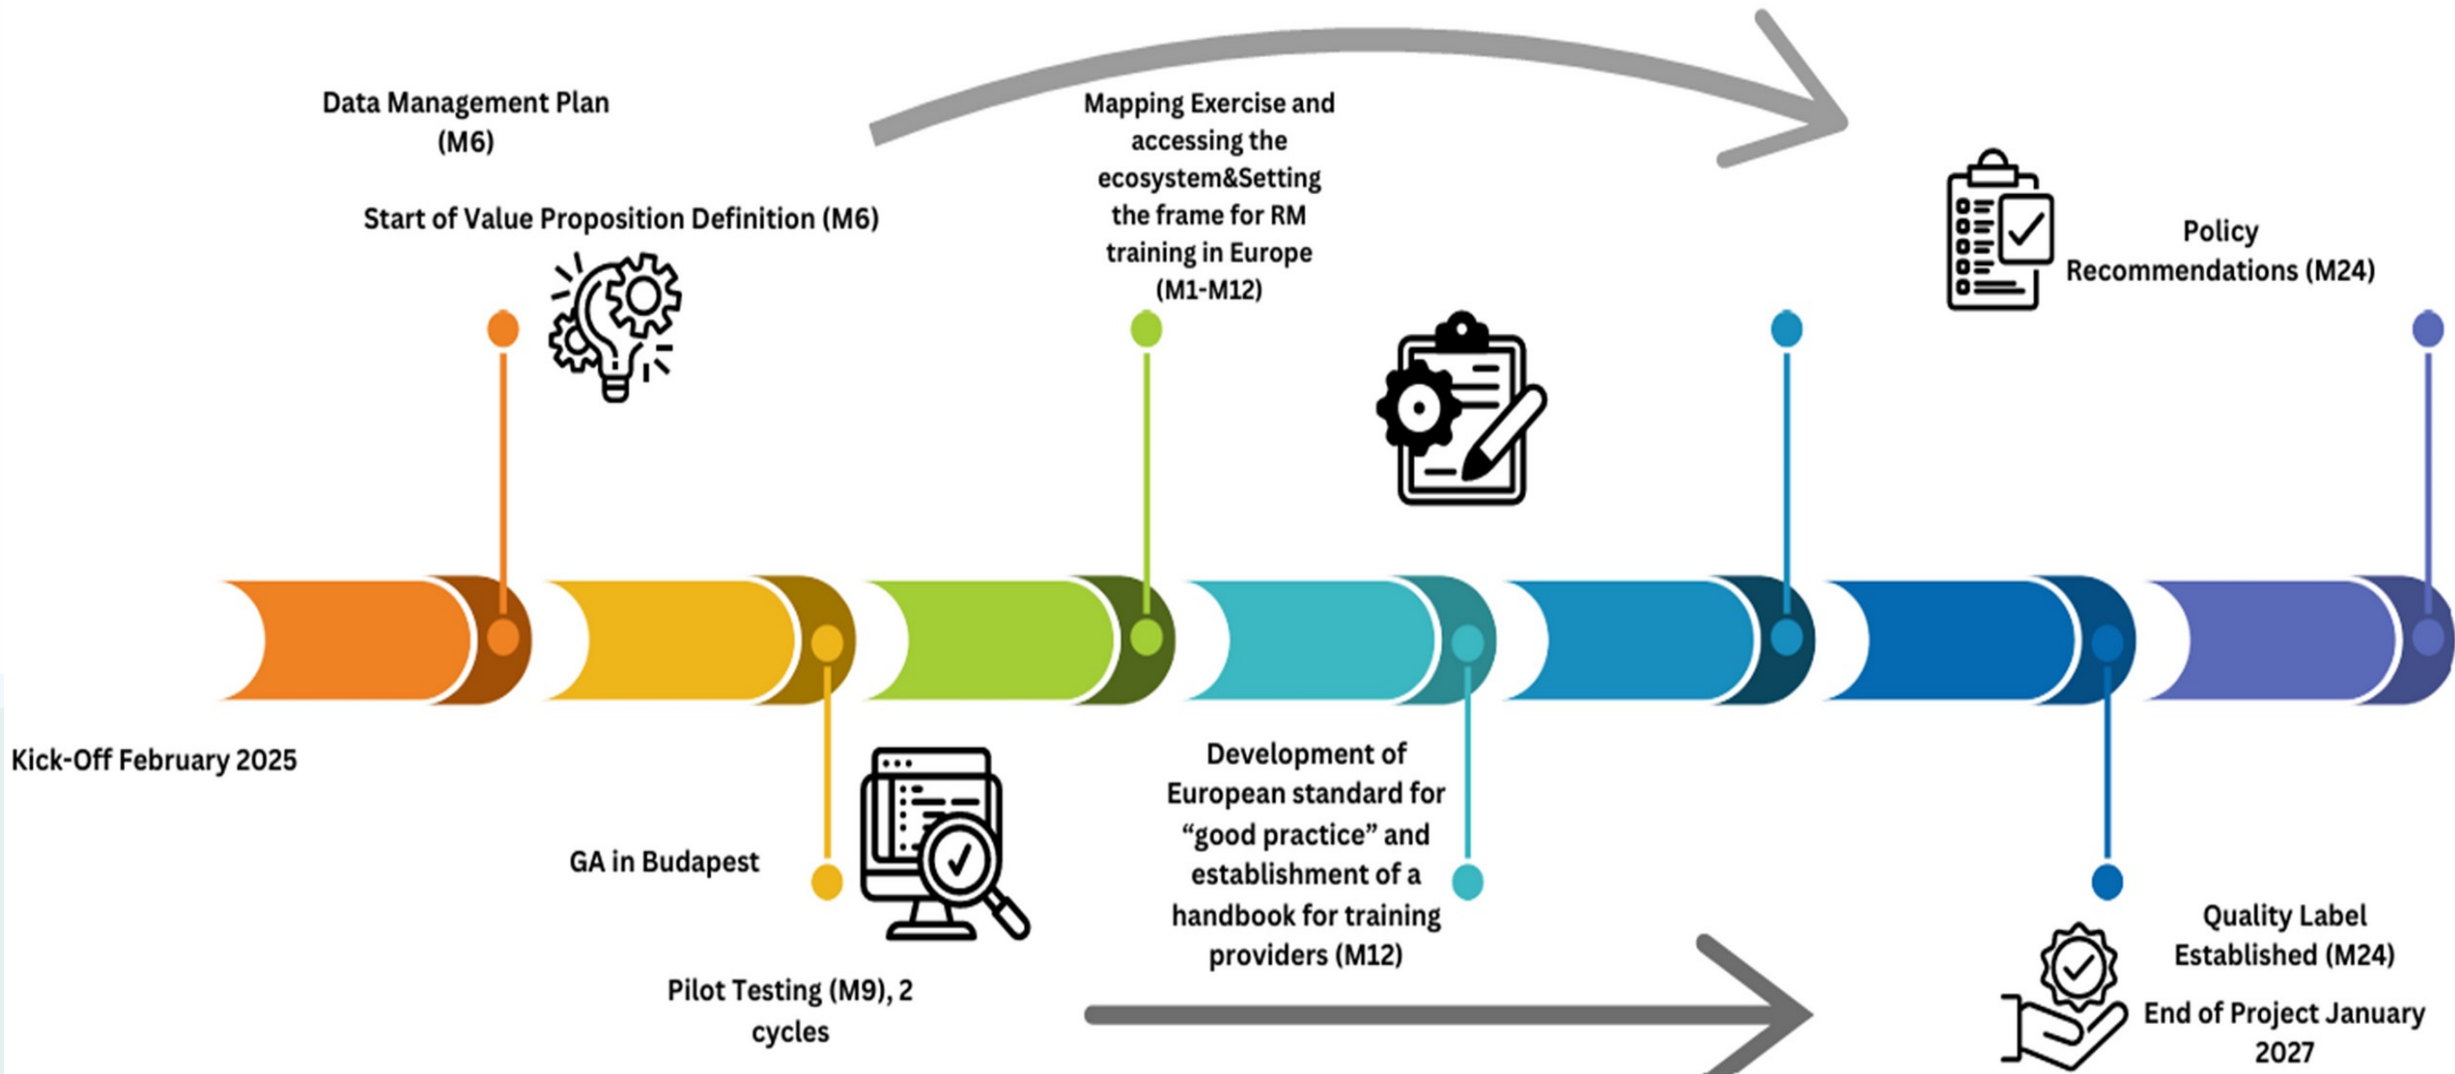

RM FRAMEWORK

RM Framework project has received funding from the European Union's Horizon Europe programme under grant agreement number 101188073

RM Framework Timeline

3 key results

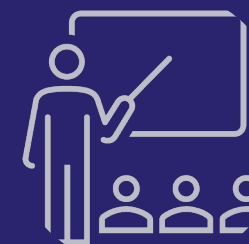

Handbook

- A handbook for developing high-quality training programmes for RMs

Quality Label

- A quality label to standardise RM training programmes across Europe

Pilot testing

- Pilot testing to test and measure the impact both on individual and institutional level

RM FRAMEWORK

RM Framework project has received funding from the European Union's Horizon Europe programme under grant agreement number 101188073

From training to policy change

- **RM Framework will**

- Organise online and offline user events to enable the transferability and adoptability of the framework and the label
- Engage policymakers and institutional leaders to push for RM professional recognition
- Deliver policy recommendations advocating for sustainable funding, standardised training and integration into national and EU policies

RM Framework project has received funding from the European Union's Horizon Europe programme under grant agreement number 101188073
